SERVEWELL® HOT FOOD TABLE

ServeWell® 3 Well Hot Food Table

DESCRIPTION

We build each ServeWell® unit with heavy-gauge steel, and engineer the body, legs, and base for strength and durability. The complete line of ServeWell® food tables are designed to eliminate the frustrations you have had with traditional food service units.

Vollrath offers the first truly innovative design in value-priced mobile serving equipment. The heart of this revolutionary line is the Hot Food Table, available in 2-, 3-, 4-, and 5-well configurations.

Each well will accept full-size or fractional pans to 6" (15.24 cm) deep, and can be used with standard adaptor plates and insets for serving flexibility.

PERFORMANCE CRITERIA

ServeWell® Hot Food Tables are designed to hold heated prepared foods at temperatures above the HACCP "danger zone" of 140° F (60° C). The performance standard is measured using the NSF mixture preheated to 165° F (73.9° C). The electric unit will hold the temperature of this product above 150° F (65.6° C). The temperature will be maintained when the food product and inset are used with a standard inset cover, the proper water level is maintained in the well, and the food product is stirred regularly.
