#### **BUFFET AND TABLETOP SERVICE**

# New York, New York® Dripless Countertop Buffet Service

When the most elegant dining atmosphere is needed, choose the line that sets the standard - New York, New York. A favorite of hotels, restaurants and caterers who desire quality, elegance and value.

- >> Brilliant mirror-finished 18-8 stainless steel
- >> Durable solid legs and welded construction
- >> Clear coated brass trim to deter discoloration

# New York, New York® Retractable Dripless Chafers

- ▶ 9 qt. rectangle chafers include Super Pan 3® food pan
- ▶ 6 qt. round chafers include food pan - divided food pan available
- Use standard fuel or Vollrath's Universal Electric Heater (sold separately, see page 4-22)

46255

#### Channeled Cover

Condensation accumulates in the dome cover and is transferred through the channel in the cover back into the water pan. Keeps the water out of the food and off the table.

## Dripless Water Pan

The extra wide rim of Vollrath's unique water pan does not allow food or water to drop below the chafer onto the table and creates a more stylish appearance.

## Breakthrough Hinge Design

Vollrath's proprietary hinge design works in the closed, 90-degree, and fully-open position using only moderate force to change position. No levers or switches required to operate. Hinge tension is adjustable.

### Removable Cover

The new design includes a removable cover for easy cleaning.
